Conserver® XL2

Dual Rack Low Temperature Chemical Sanitizing Door-type Dishwasher

Standard Features

- Accommodates two racks side-by-side
- Fill and Dump design disposes of dirty water, replacing it with a fresh water rinse every cycle
- Electronic timer
- Internal sump design
- Delime mode for easy removal of hard water deposits
- Door-actuated start
- Convenient top-mounted controls
- 17 1/4" (438 mm) vertical inside clearance
- Interchangeable upper and lower stainless steel wash/rinse arms
- Door switch
- Self-draining stainless steel pump eliminates soil/detergent carryover between wash and rinse cycles
- Built-in waste accumulator
- Removable scrap screen
- Built-in chemical pumps and priming switches
- Air gap instead of vacuum breaker
- Low chemical indicator lights
- Wash thermometer
- Single point electrical connection
- Dual point drain connections allow for installation versatility
- Stainless steel adjustable bullet feet
- Durable stainless steel construction

Specification Statement

Specified unit will be a Jackson Conserver XL2 low temperature chemical sanitizing door-type dishwasher, rated to NSF/ANSI Standard 3 by ETL Sanitation. Unit will be ENERGY STAR® certified. Unit to be rated for 82 racks per hour, 1.13 gallons per rack, and will include an electronic timer and an internal sump. Other features include a 17 1/4 inch vertical inside clearance, interchangeable wash/rinse arms, 1 HP self-draining stainless steel wash pump, built-in chemical pumps and priming switches, delime mode, low chemical indicator lights and built-in waste accumulator. Constructed of durable stainless steel with adjustable bullet feet.

1-year parts and labor warranty.

Advisory: Jackson WWS, Inc. <u>DOES NOT</u> endorse "Tankless On-Demand" water heaters for use with our dishmachines. Jackson WWS, Inc. <u>DOES</u> endorse, and highly recommends, standard "tank" style water heaters, sized to properly handle the water heating requirements of the facility.

*Racks per hour calculated with NSF suggested load time of :05 for door-type (straight thru) dishmachines. The load time is doubled in our calculation because this unit is a dual-rack dishmachine.

**Gallons per hour calculated with NSF suggested load time of :05 for door-type (straight thru) dishmachines. The load time is doubled in our calculation because this unit is a dual-rack dishmachine.
