

Undercounter Dishmachines

Wash wares anywhere.

Warewashing Systems

Why Jackson Undercounters?

In short, they offer more standard features than any other brand. Other manufacturers often accompany their machines with a long list of “optional” features that are actually necessary for optimal performance. Jackson undercounters are fully operational with all the features you need for optimum cleaning, and with their competitive price, they’re one of the best warewashing values you can buy.

Jackson undercounter dishmachines are ideal whenever space is at a premium. Offering a compact approach to fast, reliable results, Jackson undercounters offer superior cleaning performance.

Avenger® HT-E

High-temp performance without a high price tag

Resource Efficient

- ENERGY STAR® qualified
- Uses only 0.73 gallons of water per rack

Exceptional Performance

- Cleans up to 26 racks per hour
- Built-in booster with Sani-Sure™ technology prevents the machine from going into the final rinse until the proper sanitation temperature is achieved
- Air-insulated between the machine’s body and stainless steel housing to keep external surfaces cool and reduce noise level
- Self-draining stainless steel pump eliminates soil/detergent carryover between wash and rinse cycles
- Labyrinth-style door seal
- Built-in chemical pumps ensure proper chemical usage and save space

Easily accommodates wares of varying sizes

Easy to read LED display

Easy to Install, Operate and Maintain

- Sensor Touch™ start makes start-up easy and safe
- Pumped drain for installation flexibility - connect to either a wall or floor drain
- Digital and electromechanical components
- Easy to read LED display

Available in two high-performance models, each Jackson undercounter includes a variety of distinctive features and benefits that conserve resources, enhance performance, and make your dishmachine easy to operate, clean and maintain.

Avenger® LT

Less expense, more clean

Resource Efficient

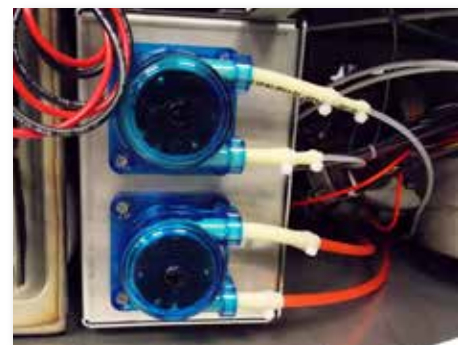

- ENERGY STAR® qualified
- Uses only 1.2 gallons of water per rack
- Chemical sanitizing reduces demand for hot water, saving on utility bills and reducing operating costs

Exceptional Performance

- Cleans up to 24 racks per hour
- Chlorinated sanitizing agent ensures optimum sanitation and serves as an excellent stain remover
- Self-draining stainless steel pump eliminates soil/detergent carryover between wash and rinse cycles
- Built-in low product indicator light alerts the user when the machine runs out of chemical products
- Labyrinth-style door seal
- Above-water scrap basket reduces the amount of re-circulated food soil, resulting in cleaner wares and reduced chemical usage
- Built-in chemical pumps ensure proper chemical usage and save space

Easy to Install, Operate and Maintain

- Push-button instant start makes start-up easy and safe
- Pumped drain for installation flexibility - connect to either a wall or floor drain

Built-in chemical pumps

Durable stainless steel handle is contoured for a comfortable grip

Complimentary Performance & Installation Check

From the very beginning, Jackson is there to ensure your equipment is working to its full potential. At the time of installation, our Jackson Authorized Service Agent (ASA) will run the machine to verify that all electrical, water, and drain hookups are correct, the machine turns on and off, there are no leaks, and the pumps are rotating in the proper direction. If the installation is performed by anyone other than a Jackson ASA, we recommend that the customer contact Jackson Technical Service to schedule our Performance and Installation Check. After the installation is powered and plumbed, this complimentary Jackson service verifies the installation; checks and adjusts temps, cycle times, and parts; and evaluates all the operation/performance capabilities of the unit.

About Jackson

Jackson WWS, Inc. is a full-line supplier of high-quality commercial dishmachines including flights, conveyors, door-types, glasswashers and undercounters. Founded in 1925, Jackson stands by their “Clean the First Time[®]” commitment with dishmachines that deliver optimal cleaning performance while reducing labor, chemical and utility costs. With more standard features, lower operating and acquisition costs and our network of factory-certified technicians, Jackson sets the standard for warewashing. For more information about Jackson and its full line of warewashing solutions, please visit www.jacksonwws.com or call 1.888.800.5672.
