

DishStar® HT-E-SEER

High Temperature Sanitizing Undercounter Dishwasher
with Steam Elimination & Energy Recovery

- Steam Elimination
- Energy Recovery System collects the hot water vapor inside the machine and uses it to preheat the incoming rinse water
- Operates on a single cold water connection
- Recirculating wash design with fresh water rinse
- Push button start with auto-fill
- Three selectable timed cycles for warewashing flexibility and performance
- Energy Saver Mode
- Delime cycle
- Built-in booster heater with exclusive Sani-Sure™ final rinse system ensures proper rinse temperature
- Solid-state controls with digital LED display and service diagnostics
- Automatic pumped drain for both floor and wall drain installations
- Built-in chemical pumps and priming switches
- Double-wall cabinet for quiet operation and reduced heat loss
- Powerful 1hp stainless steel wash pump
- Door interlock comes standard

Wash Dishes Practically Anywhere!

- Exceptional cleaning performance
- Operates on a cold water connection
- Virtually eliminates steam

DishStar® HT-E-SEER

The DishStar HT-E-SEER provides exceptional cleaning performance and high-temperature sanitizing while consuming only 0.60 gallons of water per rack. The Steam Elimination and Energy Recovery System collects the hot water vapor generated during the wash and rinse cycles and uses it to preheat the incoming rinse water. This allows the machine to operate from a cold water supply only, saving energy and reducing steam to improve the operator's experience. Simple to operate with automatic fill, push button start, and three selectable cycles for Normal, Heavy, and Extra Heavy soil loads. Perfect for coffee shops, bars, quick service restaurants, small healthcare facilities, day care centers, and convenience stores.

Halo Wash Arm
