### **RackStar Security Package**

The RackStar Security Package includes security screws, locking panels, locking doors, locking display cover, locking under-cage, and hook-mounted curtains.

This is an addendum to the RackStar manual which shows the differences between the standard RackStar and the RackStar with Security Package and is meant to be used with the manual (i.e. only parts specific to the security package are shown in this addendum, except when common parts are included to show relationships/assemblies).

The manufacturer provides technical support for all of the dishmachines detailed in this manual. We strongly recommend that you refer to this manual before making a call to our technical support staff. Please have this manual open when you call so that our staff can refer you, if necessary, to the proper page. Technical support is not available on holidays.

Contact technical support toll free at 1-888-800-5672.

Technical support is available for service personnel only.
