

#### NOTICE

These instructions are for Exhaust Fan Timer 2 (05945-004-34-92). If your machine doesn't have this timer, click [here](#) for Exhaust Fan Timer 1 instructions (or navigate to them on our website).

#### PROGRAMMING

1. Using a flathead screwdriver, turn the blue knob until the arrow points at the "3" line.

*This will program the timer to run the fan for 2 1/2 to 3 minutes.*

2. If this is not suitable, turn the blue knob until the arrow points at the desired time.

*The blue knob can be set from 0 to 10, with each increment corresponding to 1 minute.*
