- Field convertible from 3-phase to single phase and vice versa (kit required)
- Powerful 1 HP stainless steel pump motor

**Experience DYNAMIC
performance with the
Jackson DynaStar!**

DynaStar®

Cleanability

Our triple wash arm is engineered to focus more water on the ware for superior cleaning performance. Our adjustable rinse system keeps you in control - choose Econo or Turbo based on the soil level of each load.

Operation

Easy-to-read digital controls, a full wrap tubular handle, and a door-activated drain closure make operation of the DynaStar a breeze.

Serviceability

Ease of serviceability is important to Jackson, so the DynaStar was designed to make service access easy. All service parts can be accessed while the unit is in place - no need to pull it from the wall or disconnect tables.
