- Specially designed stainless steel nozzles provide superior cleaning action
- Field convertible from straight-through to corner and vice versa (requires purchase of false panel kit)

**Experience DYNAMIC
Performance with the
DynaStar VER!**

DynaStar® HH-E VER

Cleanability

Our triple wash arm system is engineered to focus more water on the dishes for superior cleaning performance. Our adjustable rinse system keeps you in control - choose Econo or Turbo based on the soil level of each load. The 27" vertical chamber clearance accommodates larger ware so don't forget the pots and pans! The DynaStar HH-E VER is dual certified as a dishwasher and a potwasher.

Operation

Ventless means virtually no steam is released into the dishroom. Easy-to-read digital controls, handles on three sides, and a door-activated drain closure make operation of the DynaStar HH-E VER a breeze.

Serviceability

Ease of serviceability is important to Jackson, so the DynaStar HH-E VER was designed to make service access easy.
