Experience **DYNAMIC**
performance with the
Jackson DynaStar HH-E!

DynaStar® HH-E

Cleanability

Our triple wash arm system is engineered to focus more water on the dishes for superior cleaning performance. The adjustable rinse system keeps you in control - choose Econo or Turbo based on the soil level of each load. The 27" vertical chamber clearance accommodates larger ware so don't forget the pots and pans because the DynaStar HH-E is dual certified as a dishwasher and a potwasher.

Operation

Easy-to-read digital controls, a full wrap tubular handle, and a door-activated drain closure make operation of the DynaStar HH-E a breeze.

Serviceability

Ease of serviceability is important to Jackson, so the DynaStar HH-E was designed to make service access easy. All service parts can be accessed while the unit is in place, so there is no need to pull it from the wall or disconnect tables.
