- Low chemical indicator lights
- Adjustable bullet feet
- Durable stainless steel construction

**Conserver XL-E** 

## Clean the First Time<sup>®</sup> Performance!

## Meet The Conserver Family of Products

Jackson's family of Conserver products offers a solution for every application. These low temp, chemical sanitizing door-type dishwashers provide robust cleaning power to get dishes *Clean the First Time*<sup>®</sup>! The fill and dump design disposes of dirty wash water, replacing it with a fresh water rinse every cycle, while the self-draining stainless steel pump eliminates soil/detergent carryover between the wash and rinse cycles. The internal sump saves space and provides a more aesthetic appeal to the product. Built-in chemical pumps and priming switches come standard on all Conserver products, and a low product indicator light alerts the user whenever the machine runs out of chemical product.
